

Stage 1 . Back In The Old Country

Meet Ashleigh Sinner, a feisty *futanari* redhead born and raised on a farm in the countryside of Ireland.

Don't let her bland looks and bored expression fool you: *she isn't afraid of getting down and dirty!*

A girl of many kinks, growing up on a farm Ashleigh nurtured many twisted fantasies including those of her being treated like livestock.

Eventually her secret desires became too much for the boring life in a small town and her rebellious nature led her to the decaying streets of **America!**

Stage 2 . The American Dream

One month in *America* and *Ashleigh* gave her first steps down her path of corruption.

Changed, now she dresses pretty like the big city girls, got her nails and eyebrows done, pretty make-up and revealing clothes, after a long day at work, she's ready to rock!

She got a weekday job as a **car mechanic** and works as a *stripper* on weekends, the extra money helps make ends meet but the real reason is she loves being nasty!

Farm life upbringing, *Ashleigh* isn't strange to engines or afraid of getting dirty, she often dealt with the family's tractors and truckers. City cars are a piece of cake for her!

She works hards and despite her now girlish look, *Ashleigh* is actually a slob with her personal hygiene.

Stage 3 . Ashleigh Sinner

Three months in America, Ashleigh has now reached her dream body and looks!

Daily working hard on vehicles and hitting the gym gave her a more muscular build, deep make-up, *tattoos* and hair dyed with vivid colors that brings out her true nature!

Mechanic by day, **nastiest hooker** by night, Ashleigh now cares even less for her hygiene, her pubic and armpit hair are growing big, she has developed a strong body odor, and shows up at work in revealing smelly clothes, always leaving her sweaty dick hanging out.

At first it caused a few complaints from her manager, which were quickly dismissed when he noticed the spike in new customers bringing their car in for “quick repairs”.

They come to see that big sweaty cock and big ass bouncing around, and later become Ashleigh’s regular customers at her night job.

Her manager and co-workers, even the most old-fashioned troglodytes that often said they would never fuck a dickgirl, are now getting in line to spend most of their paychecks to have a go at Ashleigh’s smelly pussy and dick!

Stage 4 . Gyaru Life Style

Six months in America, Ashleigh quit her day job as a mechanic to work only as a prostitute. Much to her clients joy, she lately has turned herself into a *Gyaru*.

She dyed her hair with even more wild colors tanned her fair skin and now is showing off her sexy tanlines with flashy clothing and make-up!

Along with slutty clothing and accessories, high socks are a must for every Gyaru, Ashleigh sports her socks soaked in sweat and body fluids, she never washes them!

She got more tattoos and stopped shaving completely, her body hair keeps growing. It's so dirty and her customers love it!

Stage 5 . Ganguro

Eight months in America, with a darker tan and dressed like a true whore, Ashleigh went further down her path of corruption and turned into a *Ganguro*.

Along with dressing more slutty than ever, she finished her leg tattoo and got more.

She had long stopped shaving and didn't wash her clothes, now Ashleigh rarely washes herself, she gets hairier and smellier by the minute, her body hair and stench are reaching unseen levels of filth and she loves it!

Her regular customers are happier than ever, and her nastiness has bought new freaks from all over the city and abroad.

Passionate customers turned her old, foul dirty socks into arm sleeves and "gifted" her a pair of leg warmers to be tarnished by theirs and hers filthy fluids.

Stage 6 . Ogyaru Ganguro

Ten months in America, with even more dark and greasy skin, heavy *manba* make up, high bleached hair and **stupid big lips**, Ashleigh reached peak of filthness and turned into *a Ogyaru Ganguro*.

She never, ever, washes or shaves herself, covered in filthy all the time, she stinks to high heavens and her clothes are so mouldy and dirty, it's falling apart.

Her body stench now can only be described as something *vile*.

The normal folk can't withstand it, *the sick and freak* instinctively gets hard by it.

In a city where everything is allowed, a request to remove her from her corner came up at city hall, it was such a odd subject that the *Mayor* decided to personally look into.

The *Mayor*, a sick fuck who partakes in all kinds of high society debaucheries had never seen something as awful, at the sight of sheer obscenity, the most primal instincts of the *Mayor* kicked in and Ashleigh was fucked silly.

The request was trashed, the Mayor said: *she's living the American Dream*.

Stage 7 . Her Becoming

One year in America, Ashleigh has now become the **embodiment of filth**,

Among her ever growing customer base, groups were formed and the sickiest of them united to make Ashleigh fall even lower in her *path of corruption*.

Extreme body hair has grow all over her, she now uses **shit** to do her make-up, they injected **piss and cum** in her lips to make it *stupid big and blotched*.

She's a 24/7 toilet whore and never leaves her corner, all her nutrients comes from the customers shit and cum.

Her teeth and tongue are rotten from eating so much filth. Any metal in contact with her shit injected tits becomes rusty.

Her hair became a mix of piss, snot, shit cum that has a grease like texture.

Her clothes are straps made of her old dirty socks with ***her pubic hair glued to it and to condom belts with cum***. The platform heels were hand made by her customers, ***packed with excrements inside*** it so she's always stepping in shit.

Ashleigh Sinner fulfilled her dream, she is now a walking filthy toilet, ***her becoming is complete***.

Hi~~

wanna have some fun?
